GRADES:

The following scale will be used to determine the final grade:

93-100 = A	80-82 = B -	67-69 = D+
90-92 = A-	77-79 = C+	63-66 = D
87-89 = B+	73-76 = C	60-62 = D-
83-86 = B	70-72 = C-	0-59 = F

The following items will be used to determine your final grade:

Presentations (x2):	20%
Practice translations (x6):	20%
Formal translations (x2):	20%
Quizzes (from texts)	10%
Participation/Attendance:	10%
Final Project:	20%

Translations: There will be practice translations and formal translations. The practice will be done at home and then we will review them as a class on the day indicated on the schedule. The formal translations will follow the same format but grading will be more detailed and they will be weighted more heavily. A rubric will be provided before the first practice translation.

Translations are due at the beginning of class. Any practice translation turned in AFTER our class discussion about it will not be accepted for a grade. Any formal translation turned in late will be half off the first 24 hours. It will not be accepted after that.

Quizzes: These will be given periodically to ensure reading of the text has been completed. Generally, they will be given at the beginning of class on Weds.

Schedule of activities: You will note the schedule follows a general pattern: Mondays will be translations (your work); Wednesdays will be from the text which should be read before attending class (a theoretical-practical study and discussion) and then the instructor will present a topic, case study, or challenge in translation. There are a few exceptions to this pattern as presented on the syllabus.

Absences: You are allowed two (2) absences without it affecting your grade. Every absence after will incur a 5% reduction in your participation grade. Students who miss 10 or more classes will receive an "F" grade. There is no make-up available for unexcused absences. Those who have absences related to college functions will need to provide documentation that the activity was required and excused by proper university authority.

Presentation (x2): Each student will create a presentation to be given in-class on the date indicated on the course schedule. It will include a one-page handout with the most pertinent information which will have visual aids, sources, pertinent unfamiliar vocabulary, and be narrative in nature. The presentation itself will cover more in-depth one of the Challenge in Translation topics presented early in the semester.

Topics will be assigned in consultation with the instructor.

Final project: This is your chance to translate in an area of your own interest. The topic is open. Details and length will be discussed later in the semester. You will provide the source language original and a final version of the translation. All students will translate from their second language into their native language. If the original already has a translation, that translation may not be used in any way. The same rubric used for the formal translations will be used for the final project. The project will be turned in during the time set for the final exam—Wednesday, Dec. 8th at 11am.

COVID-19 Statement: Be flexible! As the COVID situation changes so may university policy as well as class policy. Policies for Utah and Dixie State University vary on a number of factors including legislation, the local health department, the size of classrooms, the number of students enrolled, etc. To that end IF as a class we are able to maintain whatever guidelines given, AND the current policies allow it, AND Dixie State policy allows, we will meet without masks required and will meet in person. However, if policy states masks are required in all in-person classes, or we need to move to required distance format which REQUIRES ALL STUDENTS in that class to wear a mask, there will be no exceptions granted and the following will be policy:

The CDC recommends wearing cloth face coverings in public settings to slow the spread of the coronavirus and to help people who may have the virus and do not know it from transmitting it to others. Consequently, a face covering must be worn continuously while you are inside the classroom, laboratory or other instructional setting or inside a faculty member's office. This practice will provide a safer instructional environment for you, your classmates, and the instructor and will help slow or stop the spread of coronavirus in our community. There will be no exceptions to this rule, if put in place, if you wish to attend class face to face. If you have a medical condition or other objection to wearing a

face covering when required, you are welcome to attend class at a future semester. Face coverings can be made from household items or purchased.

Additionally, though highly unlikely, there is a possibility that courses could be moved completely to an online format if mandated by legislation and the health dept., again, be flexible.
